Currently employed with Howard Dedicated Inc. Offering deliveries for Southern California Edison throughout Southern CA. I uphold positive and responsible qualities in my life and carry those values throughout my job. I am looking for a company that I can grow with and also be an asset to the organization.

## Work Experience

---

### **Driver**

Howard Industries Inc - Fontana, CA  
November 2015 to Present

Responsible for safe operation of semi flat bed truck with loads varying from 50,000lbs to 80,000lbs. Doing a pre trip inspection before safe distribution of Southern California Edison materials to surrounding service centers throughout LA basin. Uphold positive and responsible customer service. Completing a post trip inspection at the end of day and completing proper paper work at end of shift. Was awarded driver of the month 4 times for meeting company safety standards.

### **Transfer Truck Driver**

Rise Above Trucking - Corona, CA  
March 2014 to Present

Performed pre trip inspections on Class A transfer truck vehicle for safe operation. Duties were to carry out deliveries to local job sites with a total weight of 80,000lbs of either rock or sand to customers. Establish a positive attitude throughout the day and excellent customer service. Initialize paper work is done correctly and to the fullest. Perform a post trip of vehicle at the end of the day.

#### Accomplishments

Carrying out deliveries safely and accurately with an oversized vehicle to customers' likings.

#### Skills Used

Able to maneuver an oversize vehicle in tight spaces allowing load to be delivered in the correct area.

### **Driver**

Gardner trucking - Chino, CA  
January 2014 to November 2015

Operated semi flat bed with 3 wheel piggy back forklift. Pre trip inspection of equipment. Responsible for picking up bales of cardboard with a weight of 80,000lbs at Wal-Mart's in Southern CA. Completing proper paper work and doing a post trip inspection

### **Truck Driver/Laborer**

American Heavy Moving and Rigging - Chino, CA  
February 2013 to March 2014

#### Responsibilities

Inspect Class A vehicle and verify load. As part of a team would unload 300,000lbs to 800,000lbs transformers off of large vessels via cranes. Then place transformer onto oversize trailers using chains and binders to secure load. With police escort we would transfer oversize loads to sub stations throughout CA. Once at sub station we would lower transformer via hydraulic jacks and roll transformer onto designated concrete pads. Doing a post trip inspection afterwards.

#### Accomplishments

Was part of a team that would work hard and complete the task.

#### Skills Used

Driving skills and physical aptitude which was necessary for the job.

### **Bottom Dump Truck Driver**

OST Inc - Chino, CA

January 2011 to February 2013

#### Responsibilities

Do a pre trip on Class A vehicle. Operate vehicle to quarries and load either rock or sand weighing 80,000lbs to local ready mix plants. After would perform a post trip inspection of vehicle and fill out proper paperwork.

#### Accomplishments

Would complete accurate distribution of material to ready mix plants.

#### Skills Used

Operation of bottom dump safely and responsibly.

### **Laborer**

Waste Management - Simi Valley, CA

February 2010 to February 2011

#### Responsibilities

Maintain upkeep of landfill site. Traffic control of trash trucks to designated areas. Would operate water truck for dust control. Participate with others in completing landfill site projects.

#### Accomplishments

My positive attitude throughout work week. Wanting to complete duties to perfection and on time as a team member.

#### Skills Used

Knowledge of using hand tools and power equipment. Being able to teach and show others how to safely use the proper tools for a job.

### **Truck Driver**

Central Valley Builders Supply - Reseda, CA

May 2005 to February 2010

Safe operation of semi flat bed truck. Doing a pre trip inspection of vehicle, would be

responsible for prompt deliveries of building materials such as block, brick, cement, drywall weighing up to 60,000lbs to 80,000lbs to local job sites via semi flatbed with the use of operating a forklift. Completing a post trip inspection and proper paper work at end of day.

#### Accomplishments

Ability to carry out deliveries safely and professional at all times.

#### Skills Used

Use of equipment in a safely manner. Obeyed all road regulations per vehicle I was operating. Completed proper and legal paperwork to company in a timely manner.

### **Wildland Firefighter**

Ventura County Fire Department - Camarillo, CA

April 2001 to May 2005

Part of an initial attack flight crew for wildland brush fires. Would safely cut a fire line break to control and suppress a brush fire. Would communicate via hand held radio with dozer operators and helicopters. Would maintain upkeep of hand tools ( Pulouski, McLeod and Chainsaws). Was promoted to dozer swamper. Duties were learning safe operation of dozer. Unloading and loading dozer onto a lowboy trailer. Securing dozer to trailer with chains and binders. Would lead dozer operator to an emergency brush fire. Would walk ahead of dozers path and communicate with dozer operator via hand held radio for any hazards.

### Education
